

- OK Champion Rodders feature fast simple operation of the rod - forward/reverse action, clockwise/counterclockwise rotation, lateral movement and braking action - all performed with a convenient one-hand control.
- Visual hydraulic gauges indicate pressure of lateral and rotation circuits at all times. Controls are located for the convenience of the operator.
- Designed for heavy duty rodding of telephone and power conduit, sanitary and storm sewer lines.
- Capable of pushing continuous rod up to 300 meters (1000') in conduit without spinning. In extreme circumstances where plugging or mis-alignment of the duct has occurred, the rod can be rotated to a maximum distance of 450 meters(1500').
- Drive head is totally hydraulically driven .
- Two hydraulic motors mounted on the drive head provide power directly to the three pairs of gear driven, heat treated steel drive rolls.
- Proportional hydraulic torquing for longer rod life and greater pulling power.

#### Features:

- Pulling Force 7000 lbs
- Rod Speed 200 fpm
- Rod Diameter .461"
- Rod distance meter
- Lateral pressure control
- Rotation pressure control
- Rod Oiler
- Tool storage boxes
- 185 CFM underdeck compressor with hose reel
- Hydraulic driven rear mounted capstan
